The Hiring Manager

Dear Sir/Ma'am,

I am writing to express my interest in joining your team. I am a fresh graduate with a Bachelor of Science in Information Technology (BSIT) degree from the University of Cebu – Main Campus where I focused on building practical, real-world applications. I am highly motivated to jumpstart my professional career and am open to any entry-level IT positions—such as Associate Web Developer, Help-Desk, WordPress Assistant or etc.—where I can apply my skills, learn your specific workflows, and grow with your company.

I have gained real-world hands-on experience building systems for actual clients. As part of a 4-member team called KATD SOLUTIONS (4-Member Freelance Team), We developed a Loan Monitoring and Financial Management System for the UC METC Campus. Working alongside another backend developer, we built the API from using Node.js, Express, and PostgreSQL, coding the real-world mathematical formulas cooperatives use to calculate monthly amortizations and track investments.

Additionally, during my internship, I managed daily office paperwork and digital documentation, used WordPress and Elementor to edit client pages, and managed graphic tasks in Canva. I also independently built *MentorLog*—a system driven by a local database that the company actively used for the daily login and attendance tracking of OJT students. Recently, I also served as the Lead Developer for our Capstone project, *ChronoNav*, where I managed our code using Git/GitHub, designed layouts in Figma, and helped write our project documentation for the defense.

I am a responsible, cooperative, and coachable person who is ready to learn your workflows. While I am aiming for a Web Developer role, I am completely open to other positions if my skills match a different opening.

I have attached my resume for your review and look forward to the chance to discuss how I can help your team. Thank you for your time and consideration!

Sincerely,

Eric Dominic Momo
